

WIRELESS-COMMUNICATION SYSTEMS
CFK 36 – 2R - UHF FULL-DUPLEX STATIONARY UNIT (2 W)

In portable minirack mounted, the unit is composed by:

- CST 36** - Wireless-communication UHF transmitter module (2 W, 16 switchable frequencies) with compander circuit
- CSR 50 (2pcs)** - Wireless-communication UHF receiver module (16 switchable frequencies) with compander circuit and CTCSS (tone-squelch) decoder
- PSS 26** - Mains power supply module (230 Vac / 12 Vdc), with mains cable
- RPT 35** - Portable minirack, 5 modules

SUPPLIED ACCESSORIES:

- AWN 35 (3pcs)** - Couple of UHF whip antennas
Upon request other kind of antennas with higher gain can be supplied.

OPTIONALS:

- AVN 10 - UHF vertical-dipole omnidirectional antenna (10 m cable)
- AMN 05 - UHF magnetic-base antenna (5 m cable)
- RPT 22 - Portable minirack, 2 modules (es.: PSS 25 + CST50 or CSR50)
- RPT 33 - Portable minirack, 3 modules (es.: PSS 26 + CST36)
- RPT 23 - Portable minirack, 3 modules (es.: PSS 25 + CST50 + CSR 50)
- RPT xx - Portable minirack, custom executed
- UPK 100 - Working frequencies user-reprogramming kit (interface + software)
- PSS 25 - 230 Vac power supply module
- CST 50 - Wireless-communications UHF transmitter module (300 mW, 16 switchable frequencies)
