

WIRELESS-COMMUNICATION SYSTEMS
CFK 50 – 2R - UHF FULL-DUPLEX STATIONARY UNIT (300 mW)

In portable minirack mounted, the unit is composed by:

- CST 50** - Wireless-communication UHF transmitter module (300 mW, 16 switchable frequencies)
- CSR 50 (2pcs)** - Wireless-communication UHF receiver module (16 switchable frequencies) with compander circuit and CTCSS (tone-squelch) decoder
- PSS 25** - Mains power supply module (230 Vac), with mains cable
- RPT 24** - Portable minirack, 4 modules

SUPPLIED ACCESSORIES:

- AWN 35 (3pcs)** - UHF whip antennas.
Upon request other kind of antennas with higher gain can be supplied.

OPTIONALS:

- AVN 10** - UHF vertical-dipole omnidirectional antenna (10 m cable)
- AMN 05** - UHF magnetic-base antenna (5 m cable)
- RPT 22** - Portable minirack, 2 modules (es.: PSS 25 + CST 50 or CSR 50)
- RPT 33** - Portable minirack, 3 modules (es.: PSS 26 + CST 36)
- RPT 23** - Portable minirack, 3 modules (es.: PSS 25 + CST 50 + CSR 50)
- RPT xx** - Portable minirack, custom executed
- UPK 100** - Working frequencies user-reprogramming kit (interface + software)
- PSS 26** - 230 Vac / 12Vdc power supply module
