

**Wireless communication systems**  
**CTK 36 – UHF TRANSMITTING BASE STATION, 2 W**

The portable minirack, is composed by the following moduler

- CST 36** - Radio intercom UHF trasmitting module (2 W, 16 switchable frequencies)  
With compander circuit.
- PSS 26** - Power supply (230 Vca and 12 Vcc) with A/C cord
- RPT 33** - Portable minirack, 3 modules

**ACCESSORIES:**

- AWN 35** - UHF whip antenna, connected directly to the base unit  
We can supply on request antennas with much higher yeald

**ACCESSORIES ON REQUEST:**

- AVN 10 - UHF vertical dipole antenna (cable 10 m)
- AMN 05 - Magnetic base UHF antenna, to be used on cars (cable 5 m)
- RPT 22 - Minirack portable container, 2 modules (ex.: PSS 25 + CSR 50 or CST 50)
- RPT34 - Minirack portable container, 4 modules (ex.: PSS 26 + CST 36 + CSR 50)
- RPT23 - Minirack portable container, 3 modules (ex.: PSS 25 + CST 50 + CSR 50)
- RPT xx - Minirack portable container, on request
- UPK 100 - Kit (interface + software) to programm operating frequencies
- PSS 25 - A/C power supply (230 V)
- CSR 50 - Wireless communication UHF receiving module
- CST 50 - Wireless communication UHF transmitting module (300 mW, 16 switcheable frequencies)
